## MANAGEMENT DISCUSSION OF FUND PERFORMANCE

### Results of Operations

The net assets of the Pender Corporate Bond Fund (the "Fund") were \$1,711,409,656 as at June 30, 2024 versus \$1,454,618,667 as at December 31, 2023. Of this \$256,790,989 increase, \$121,480,946 is attributable to positive investment performance and \$135,310,043 is attributable to net unitholder purchases of Fund units.

For the six months ended June 30, 2024 (the "period"), Class A units of the Fund generated a total return of 7.3%. Returns for other classes of the Fund will be similar to Class A with any difference in performance being primarily due to the different management fees that are applicable to different classes. Returns for Class A (USD), Class F (USD), Class H (USD) and Class I (USD) will differ from Class A primarily due to foreign currency as these classes are denominated in US dollars whereas all remaining classes of the Fund are denominated in Canadian dollars. Returns for Class U will differ primarily as a result of foreign currency as this class is the only class of the Fund that is not hedged against the US dollar. Please see the "Past Performance" section for the performance of the Fund's other classes.

The Fund's blended benchmark, 75% ICE BofA US High Yield Index in Canadian dollars ("ICE") and 25% FTSE Canada Universe Bond Index returned 4.3% during the period. In accordance with National Instrument 81-106, we have included a comparison to this blended benchmark to help you understand the Fund's performance relative to the general performance of the market, but we caution that the Fund's mandate may be significantly different from the index. Further, the Fund's returns are reported net of all management fees and expenses for all classes, unlike the returns of the Fund's blended benchmark, which are based on the performance of an index that does not pay fees or incur expenses.

As at June 30, 2024, the Pender Corporate Bond Fund yield to maturity was 8.7% with a current yield of 5.8% and average duration of maturity-based instruments was 4.3 years. There is a 2.0% weight in distressed securities held for workout value whose notional yield is not included in the foregoing calculation. Cash represented 0.9% of the portfolio at June 30, 2024.

The following comments and the comments under "Recent Developments" reflect the views of the portfolio management team and are based on information as at the end of the period. Please read the caution regarding forward-looking statements located on the last page of this document.

The Fund's outperformance relative to its benchmark was mainly due to its exposure to corporate credit which has been on an upward trend. The Fund is both conservatively managed to preserve capital, as well as opportunistic to generate returns. The Fund is focused on key credit characteristics – coverage, seniority, and duration.

Key positive individual contributors to the Fund's performance during the first half of the year were positions in specific corporate issues including Esperion Therapeutics, Inc., Novavax, Inc., and Emergent BioSolutions Inc. Conversely, Government of Canada inflation-linked bonds, and certain corporate issues such as Cineworld Group plc, and Stem, Inc. were among the largest detractors.

### Recent Developments

Financial markets remained buoyant through the first half of 2024, underpinned by a resilient economic backdrop and continued cooling of inflationary trends. Against this backdrop, investor confidence grew that the Federal Reserve's battle with inflation is behind us, giving visibility to a pivot in monetary policy towards cutting interest rates in the second half of 2024. Highlighting this positive investor sentiment, we saw benchmark equity indexes rally to fresh highs, while credit spreads tightened to well below 30-year averages in fixed income markets.

Credit markets are signaling a benign economic environment going forward, providing little incentive to add broad credit risk to the portfolio. Within pockets of the market, however, we are beginning to see some divergences. Although the broad credit markets remain tight, the CCC High Yield Index has widened over the period and is beginning to price in tougher credit conditions for some companies. With elevated investor sentiment and a rosy market consensus of an economic soft landing and cooling inflation, combined with elevated valuations in risk assets, we have remained selective and patient about adding risk to the portfolio.

### **Independent Review Committee ("IRC") Appointments & Resignations**

Effective March 4, 2024, John Webster stepped down from the Independent Review Committee and John DeLucchi joined the Independent Review Committee.

## Related Party Transactions

The Fund pays management and administration fees to the Manager for management and portfolio advisory services (see “Management Fees”).

As at the end of the period, parties related to the Manager collectively held less than 1% of the Fund’s units. In addition, the Pender Alternative Multi-Strategy Income Fund, Pender Bond Universe Fund, and Pender Strategic Growth and Income Fund, funds also managed by the Manager, collectively held 2% of the Fund’s outstanding units.

## Management Fees

The Fund pays management and administration fees calculated as a percentage of the net asset value of each respective class. The Management Expense Ratio (“MER”) before applicable taxes such as GST or HST for each class does not exceed certain levels as set out in the Fund’s offering documents. The fees are calculated at the close of business on each valuation day and are paid monthly. In exchange for the administration fee, the Manager pays the operating costs of the Fund.

Management fees are used by the Manager, in part, to pay sales commissions, trailer fees, marketing costs and other associated distribution costs relating to the sale of units of the Fund.

Such expenses represented approximately 18% of the management fees paid by the Fund to the Manager for the period.

## Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund’s financial performance for the period and calendar years indicated.

### Fund’s Net Assets Per Unit (a)

(a) This information is derived from the Fund's unaudited semi-annual financial statements as at June 30 and audited annual financial statements as at December 31 for the period stated, prepared under IFRS Accounting Standards. Class N (USD) was closed on June 28, 2024. Class N commenced operations on June 28, 2024.

(b) Net assets per unit and distributions per unit are based on the actual number of units for the relevant Fund class outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding during the period.

(c) Distributions were paid in cash and/or reinvested in additional units of the Fund.

Management expense ratio before absorptions (c)	1.04%	1.04%	1.04%	1.00%	1.00%	1.00%
Trading expense ratio (d)	0.04%	0.03%	0.03%	0.03%	0.03%	0.02%
Portfolio turnover rate (e)	27.81%	61.81%	62.92%	63.24%	103.95%	61.95%
Net asset value per unit (\$) (a)	14.60	13.51	13.34	13.99	13.45	13.04

(a) This information is derived from the Fund's unaudited semi-annual financial statements as at June 30 and audited annual financial statements as at December 31 for the period stated, prepared under IFRS Accounting Standards. Class N (USD) was closed on June 28, 2024. Class N commenced operations on June 28, 2024.

(b) Management expense ratio ("MER") is based on total expenses (excluding commissions and other portfolio transaction costs) for the period and is expressed as an annualized percentage of daily average net asset value during the period. The MER may vary from one class of units to another because of differences in the applicable management fees and certain fees and expenses may have been absorbed by the Manager which would otherwise be paid by the Fund.

(c) The Manager of the Fund has agreed to absorb sufficient expenses of the Fund, as necessary, so that the annual MER before applicable taxes such as GST or HST will not exceed certain limits as outlined in the Fund's Simplified Prospectus. The amount of expenses absorbed is at the discretion of the Manager as set out in the Fund's Simplified Prospectus, and the Manager may in its sole discretion cease to absorb expenses.

(d) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.

(e) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio adviser manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. In general, the higher a fund's portfolio turnover rate in a period, the greater the trading costs payable by the fund in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

## Past Performance

The following charts show the past performance for the units of each class of the Fund and do not necessarily indicate how the Fund will perform in the future. The information shown assumes that any distributions made by the Fund were reinvested in additional units of the Fund. Returns would be different if an investor did not reinvest distributions. In addition, the information does not take into account sales, redemptions, income taxes payable or other charges that would have reduced returns or performance. Past performance for Class N (USD) units of the Fund is not available for disclosure because it was closed during the period. Past performance for Class N units of the Fund is not available for disclosure because, having commenced operations on June 28, 2024, the class has been in operation for less than one year.

## Period-by-Period Returns

To illustrate how the Fund's performance has varied over time, the following bar charts show the Fund's performance for the six-month period ended June 30, 2024 and for each of the previous 12-month periods ended December 31. The information is presented starting from the first full financial year of the respective Fund class. In percentage terms, the bar charts show how much an investment held on the first day of the period would have increased or decreased by the last day of the period.

## **Caution Regarding Forward-Looking Statements**

This report contains forward-looking statements about the Fund, including its strategy, prospects and further actions. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates”, or negative versions thereof and similar expressions.

In addition, any statement made concerning future performance, strategies or prospects, and possible future Fund action is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to risks, uncertainties and assumptions about the Fund and economic factors, among other things.

Forward-looking statements are not a guarantee of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements. Any number of important factors could contribute to these digressions, including, but not limited to: geopolitical events, general economic conditions, political and market factors around the world; interest rates and inflation; fiscal and monetary policy; global equity and capital markets; business competition; technological change; changes in government regulations; unexpected judicial or regulatory proceedings.

We stress that the above-mentioned list of important factors is not exhaustive. We encourage you to consider these and other factors carefully before making any investment decisions and we urge you to avoid placing undue reliance on forward-looking statements. Further, except as may be required under applicable law, the Manager has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance.
